

Paul Yi Won Chung

me@pywc.dev
https://pywc.dev/
1210 W Dayton St, Madison, WI 53706

Research Interests

Cybersecurity, Privacy, Anti-censorship, Operating Systems, Computer Networks, Cloud Computing

Education

University of Wisconsin-Madison B.S. Honors Candidate, Computer Sciences & Data Science Thesis: Network Censorship Measurement and Evasion Framework Advisor: Rahul Chatterjee	Fall 2020 ~ Present Madison, WI GPA: 4.0/4.0
Neung-In High School STEM High School Degree	Spring 2017 ~ Fall 2019 Daegu, Republic of Korea

Positions

University of Wisconsin-Madison - MadS&P Undergraduate Research Assistant	Madison, WI 06/2021 ~ Present
UW-Madison Cybersecurity Operations Center Cybersecurity Intern Analyst	Madison, WI 10/2020 ~ Present
Cybersecurity UW Club Head Officer & CTF Team Member	Madison, WI 09/2020 ~ Present
Carnegie Mellon University – CyLab Undergraduate Research Assistant	Pittsburgh, PA Summer 2022
Igloo Security Cybersecurity Intern Analyst	Seoul, Republic of Korea Summer 2019

Research

Network Censorship Measurement and Evasion Framework <i>UW-Madison Security & Privacy Research Group (MadS&P)</i> <ul style="list-style-type: none">Developed an internet filtering measurement pipeline and tested it on networks under various nationsDiscovered that the evasion sequence model is highly effective for certain countries	09/2022 ~ Present Advisor: Rahul Chatterjee
Engineering Privacy in iOS App Groups <i>Carnegie Mellon University Information Networking Institute (INI)</i> <ul style="list-style-type: none">Implemented a data leakage threat model for the iOS app group containersAnalyzed the group containers for 200 iOS apps to detect potential leakage for restricted data	Summer 2022 Advisor: Hanan Hibshi
picoCTF: Introducing Adversarial Machine Learning to CTFs <i>Carnegie Mellon University Security & Privacy Laboratory (CyLab)</i> <ul style="list-style-type: none">Developed five NLP-based and five CNN-based Adversarial Machine Learning challengesConstructed a user study for the challenges to be released at picoCTF 2023Introduced “ramped” difficulty system, optimized for beginning learners	Summer 2022 Advisor: Hanan Hibshi
CookieEnforcer: Automated Cookie Notice Analysis and Enforcement <i>Wisconsin Privacy & Security Research Group (WI-PI)</i> <ul style="list-style-type: none">Explored the results of the front-end interface user study for the CookieEnforcer researchDeveloped a Chrome Extension that connects the CookieEnforcer backend with the React frontendPublished the extension to the Chrome Extension Store	02/2022 ~ 07/2022 Advisor: Kassem Fawaz
Securely Measuring Password-based Logins <i>UW-Madison Security & Privacy Research Group (MadS&P)</i> <ul style="list-style-type: none">Analyzed 30 million network packets to find a pattern of credential stuffing attacksUsed Pandas and Matplotlib of Python to visualize and find edge cases from the dataFound multiple patterns in the clustered data that exhibited anomalies	06/2021 ~ 09/2022 Advisor: Rahul Chatterjee
Zero-day Vulnerability Analysis and Exploitation <i>Daegu University Information Security Research Group</i> <ul style="list-style-type: none">Analyzed the risk of CVE-2019-0708 (Bluekeep) on traditional embedded systemsDesigned a PoC that sends payloads to execute arbitrary code on the vulnerable systemPoster presented the research as the primary author at <i>CISC-W' 2019</i>	03/2019 ~ 05/2020 Advisor: Chang Hoon Kim

Publications

- [1] **Yi Won Chung**, Tae Gyeom Heo. Exploitation of RDP Bluekeep on Embedded Systems and Possible Mitigations. *Proceedings of the Conference on Information Security and Cryptography-Winter, 2019*.

Projects

Node.js Full-stack Web Application

HackMIT, 2021

- Designed a RESTful Backend API model and implemented it via Express and PostgreSQL
- Implemented a simple front-end web interface with EJS and integrated it to the backend
- Deployed resulting web app *FoodSurfers*, similar with the *Airbnb* platform to Microsoft Azure

Voice-based Interactive Chatbot

Neung-In Scholarly Awards, 2018

- Designed a chatbot pipeline that parses lunch and academic calendar info from the school website
- Deployed the app to GCP and used the Google Dialogflow API to service it on Google Assistant
- 85% of school affiliates had actively used the chatbot by 2 months of release

Honors and Awards

- Carnegie Mellon University Summer 2022 Undergraduate Research Scholarship
- UW-Madison Dean's List, Fall 2020 ~ Present
- Top 2%, National Cyber League Spring 2022 Team Game (as team: *Oxb4dgers*)
- 5th Place, Korea Ministry of Education Cybersecurity CTF Competition, 2019 (as team: *Future College Chancellor Shin Jinwoo*)
- Research of the Year, Neung-In Scholarly Awards, 2018

Skills

- Programming Languages: Python, C, C++, Java, JavaScript, PHP, Rust
- Technologies:
 - General: Git, LaTeX, Numpy
 - Data Analysis: Pandas, Matplotlib, R
 - Machine Learning: Scikit, TensorFlow, Keras, NLTK
 - Systems: Socket, Docker, CMGR
 - Web: HTML, Flask, Django, Jekyll, Hugo, React, Express
 - Security: Pwntools, Elasticsearch, Shodan, Nmap, Burpsuite, Cisco AMP
 - Database: MySQL, PostgreSQL, MongoDB
 - Cloud: Google Cloud, Microsoft Azure, Amazon AWS
- Language: English and Korean (Native), Japanese and Spanish (Basic)
